

Variability in Human Movement and Emotions

Miguel P Xochicale Chris Baber
School of Engineering
University of Birmingham, UK

December 1, 2017

1. Abstract of the proposed open paper: a concise and clear description of its objectives, methods, results, and conclusions (with a maximum of 300 words).

2. Equations can be included using LaTeX syntax: ““

$$E = mc^2 \tag{1}$$

““ and refer to the equation using Eq. 1.

3. Special symbols in the abstract should be edited in LaTeX syntax.

4. References can be added into the abstract: Use the LaTeX citation command [1] and add at the end of the abstract:
